

## WELCOME TO OUR GOOGLE SHARE VIRTUAL APPOINTMENT SERVICE!

Welcome to our Google Share Virtual Appointment service! We understand that life can be busy, and finding time to schedule appointments with a specific therapist during their open schedule might not always be feasible. That's why we're introducing a convenient and flexible way for clients to receive therapy support through our Google Share Appointments. These can be for those who would like urgent evaluations when there are limited times available or if you have had a late cancellation that needs to be rescheduled.

**\$250 Eval**

**\$85 Follow up**

### HERE'S HOW IT WORKS:

Here's how it works:

1. **Initiating the Appointment:** To schedule a Google Share Appointment, simply reach out to our clinic indicating any urgency and your interest in this service. Our staff will guide you through the process and assist you in setting up your appointment.
2. **Sharing Specific Media:** Once your appointment is scheduled, you can use your own Google Share account to securely upload specific photos or videos that you believe are relevant to your situation or concerns. These could include images of your surroundings, videos demonstrating certain behaviors, or any other visual information you think might be helpful for evaluation.
3. **Interactive Evaluation:** within 2-5 days of sharing media, our therapist will review the information you've provided and ask questions to gain a better understanding of your needs. This back-and-forth interaction allows for a comprehensive evaluation, even without an in-person visit.
4. **Follow-Up Therapy Protocols:** Based on the evaluation, our therapist will work with you to create personalized therapy protocols. These protocols may include recommendations for in-person sessions, telehealth sessions, or continued communication through the Google Share option.
5. **Flexibility and Convenience:** The Google Share Appointment option offers flexibility and convenience, allowing you to engage with therapy services on your own schedule, without the need for synchronous appointments.
6. **Privacy and Security:** Rest assured that your privacy and confidentiality are of the utmost importance to us. All communication and data exchange through Google Share are encrypted and securely managed to protect your personal information.
7. **Completing History Forms:** In addition to sharing specific media through your Google Share account, we also encourage you to fill out our comprehensive history form using the following link: [History Form Link](#).
8. This form allows you to provide detailed information about your medical history, previous treatments, current symptoms, and any other relevant factors that may contribute to your therapy needs. By completing this form prior to your appointment, you help our therapist gain a deeper understanding of your background, enabling them to tailor their evaluation and recommendations more effectively.
9. The form is designed to be user-friendly and can be completed at your convenience. Your responses are confidential and will only be accessed by our therapy team to ensure the highest level of care and personalized attention.
10. We encourage you to take the time to fill out the history form before your appointment to maximize the effectiveness of your therapy experience. If you have any questions or need assistance with the form, please don't hesitate to reach out to our staff for support.

Whether you're a busy parent juggling multiple responsibilities or a client with a hectic schedule, our Google Share Appointments provide a convenient way to access therapy support tailored to your needs.
